

VoIP & Mobile PBX Wholesale Agent Requirements

The FAQ section lists all the requirements. To receive GTI wholesale price, you must achieve a minimum of **250 Voip/Mobile/PBX** combined business accounts/users within the first six months of executing the contract. If you cannot meet the minimum, you will need to purchase and resell GTI Voice service through retail channel's corporate accounts instead. You must also have IT support, remote and internet access, email access, and a vendor or resource available to process GTI Voice billing system.

4. Click the link "Reseller Application" found at the bottom of this page. You will be directed to GTI Voice Wholesale Program signup page that requests you provide contact information for an account and an account manager will contact you and further discuss the opportunity. If the manager feels you are a good fit, you will be given permission to proceed with the application.

5. Complete the application entirely and accurately to avoid processing delays. Along with the application, GTI will perform a background check on any businesses in which you have ownership of at least 5 percent. The background check allows GTI to view and verify pertinent information about the status of your current company.

6. Supply two years of financial statements, including balance sheets and income statements. If your company has not been established for two years, financial information will be reviewed for the length of existence.

7. Pay the \$500 non-refundable application processing fee. It takes a minimum of three weeks to process the application and background check if necessary.

8. Provide a Letter of Credit. GTI requires financial protection in the form of a letter from your bank guaranteeing your ability to pay. The amount of your required deposit is based on your credit evaluation.
